VISION®PASSION®EXPERTISE

Electronic Federal Aviation
Administration Accelerated
and Simplified Tasks

The CCSi Difference

- A woman-owned business with an exclusive focus on the Federal Government
- Strong work ethic with a corporate culture that promotes teamwork
- Over 16 years of experience with significant year-over-year growth in business and revenue
- Successful performance as a prime contractor, leading teams that include the industry's largest companies
- Demonstrated ability to effectively manage large (more than over \$100 million), complex programs
- A diverse portfolio of contracts, including agency-wide, multi-task, performance-based IDIQ awards that utilize EVMS
- A strong base of experience in solutions development, enterprise SDLC and legacy systems support, business process reengineering, data and information management, and operations and maintenance.

Our eFAST Vision

CCSi has a simple goal: offer eFAST solutions and services that create unprecedented value for the customer. This is what we do best, and this is the secret to our success.

We bring:

- Ease of use, seamless task-order management, and rapid, compliant responses
- A team consisting of both Federal Aviation Administration (FAA) experienced leadership for continuity, and highly-respected industry leaders for fresh perspectives, new approaches, and innovative solutions
- Subject-matter expertise in the critical technologies and applications that eFAST users demand in order to establish or maintain IT superiority
- Experience in the transition, integration, consolidation, aggregation, migration, and modernization of software, hardware, and middleware systems to meet 21st century requirements.

The CCSi Team Meets All FAA eFAST Requirements

For 2010 and beyond, the Federal Aviation Administration (FAA) will require a broad range of comprehensive professional as well as support services.

eFAST, a professional, technical, and support services acquisition vehicle that is a small business set-aside, was specifically developed to support the FAA's mission, goals, and operations for 2010 and beyond.

eFAST will provide best-value solutions for an expanded array of professional and support services to better serve the requirements of the FAA nationwide. Also, on a limited basis and when in the best interest of the Government, eFAST can be used by other Federal Government agencies.
